In the 1st Co, tank commanders are trained on T-34/85 and T-34/76 tanks. Training in this company consists primarily in theoretical and practical instruction on tank operation, communication between tanks by means of radio, light, and flag signal, driving of tanks, and firing of tank machine guns and turret gun. Graduates are promoted to the rank of an NCO.

In the 2nd Co, tank drivers are trained on the T-34 tanks. Driving instructors are personnel of the 5th Co, which is not a training company but a company of driving instructors. Tank drivers are also instructed in tank and engine construction, and have to be able to carry out small repair jobs on the tank and its accessories. Graduates are NCO's.
